Daniel Lin

Senior Web Full Stack | Blockchain Developer

I'm considering applying for your company's Full Stack Developer position. I am certain that as a full stack engineer with extensive training and experience, I will be able to contribute significantly to your team. I have more than 8 years of experience creating and managing web apps utilizing a variety of technologies, including PHP, Laravel, Python, Django, React.js, Vue.js, Angular, Svelte.js, Next.js, Node.js, ExpressJS, and Nest.js.

Education

Bachelor of Science in Computer Science

From September 2012 to September 2016
University of Debrecen Debrecen, Hungary

Data Structures and Algorithms, Computer Networks, Database Systems, Human-Computer Interaction, and Web Development are pertinent course topics. Projects: Created a smartphone application to track and manage spending for the home, took part in a collaborative endeavor to develop a safe online voting platform.
